Seminar 1: "Hospitality and Tourism Learning Solutions and Certification"

The American Hotel & Lodging Educational Institute (EI) is dedicated to helping hospitality organizations and educational institutions meet the workforce development of the 21st century. – John S. Lohr (EI's representative in Europe)

Seminar 2: "Leadership-style"

"No school without principal. For every organization the leading manager is part of the success (or failure). In school for about 20 % (cf. John Hattie). But what style of leadership makes schools successful, effective, qualitative, responsible? And what style is a disaster for a school? We listen to several lecturers and discuss with each other: what's your style of leading?" – Herman Siebens, Vice-President AEHT, director of B21 (KTA Wemmel)
